During this exhibition, JD Malat Gallery will welcome members of the public to decide on their favourite artist through a series of online and in-person votes. The artist with the most votes will receive an exclusive solo show at JD Malat Gallery in 2021.

With all profits made from the exhibition directed at each artist and their practice, the goal of this initiative is to support artists during this difficult time. As a gallery that has inclusivity and diversity at the core of its programme, JD Malat Gallery recognises this unique artist-led initiative as an opportunity to foster connection and strengthen the art community despite this period of newfound distance caused by the global pandemic.

“During this period of unprecedented uncertainty, art is one of the most important ways to foster positivity and connect our society. We hope that this initiative not only provides a platform for artistic expression during this challenging time, but also upholds a collective mission to support the art sector and give creative individuals of all backgrounds an opportunity to exhibit their work.” - Founder, Jean-David Malat
